Technologies and Innovations

The International Climate Show will be held at Beaulieu Lausanne Convention Center (Switzerland) from 13 to 14 of February 2019 and will be dedicated to the most innovative industrial low carbon technologies, solutions for the protection of the climate and the reduction of carbon emissions.

Professionals and industries will have the opportunity to present their technologies and know-how in the fields of energy, building, mobility, green finance, circular economy, climate change adaptation and other related services.

This special event will be an opportunity for visitors to discover the latest climate protection technologies and innovations in Switzerland and worldwide.
