About the Climate Show

The Climate Show is a platform that strives to involve a critical mass of entrepreneurs, corporate decision-makers and the general public, in order to accelerate the shift toward a sustainable economy while supporting innovation and access of climate safe solutions into the market. It should be noted that the Climate Show is an independent structure acting in compliance with the highest human and environmental values.

The Climate Show includes:

- Public forums
- Conferences and workshops
- International exhibition of sustainable solutions and innovations
- A new Financial Center (for investors and start-ups)
- An international competition (Catwalk)
- An eco-travel program (Guardian of the Planet)
- Sustainable Solutions Transfer Office for Corporate and for the Hospitality Sector
- Many other side events during the Show, such as a Museum, the Green Cinema, the eco-fashion show, etc.

About the swisscleantech

swisscleantech unites climate-conscious companies. Together, we guide politics and society towards a CO2-neutral Switzerland.

As the voice of climate-conscious companies, we lead in shaping energy and climate policy. We show solutions, help sustainable business models to break through and bring companies, politicians and society together.

swisscleantech is committed to a climate-safe economy and economically viable climate policies. Effective climate protection can only be achieved together with the business sector. A sustainable economy offers many opportunities - for companies and for society as a whole. swisscleantech advocates for policies that can enable a climate safe and sustainable economy.
